Tenable Cloud Security Specialist Course

Tenable University

Tenable Cloud Security Specialist Course

The Tenable Cloud Security Specialist Course will give you the knowledge and skills you need to effectively utilize our cloud security solution. It is designed for personnel responsible for identifying, assessing and remediating vulnerabilities and misconfigurations in their cloud environments (including AWS, GCP, Microsoft Azure and Oracle Cloud Infrastructure).

Overview

This course is available as either a two-day Virtual Instructor-Led Training (VILT) or as an OnDemand Training (ODT). Participants will learn how to set up and manage the Tenable Cloud Security platform, covering key topics such as inventory management, operations, and detailed analysis to identify and reduce cyber risk in real-world scenarios.

The course features a blend of lectures, demonstrations, and interactive lab exercises, all designed to promote active engagement and enhance learning outcomes. ODT version includes 16 hours of lab environment access with course purchase.

Audience

The Tenable Cloud Security Specialist Course is suited for professionals with operational responsibilities who want to expand their knowledge to maximize the solution's effectiveness. It is recommended for those seeking to obtain a Specialist-level product certification.

Prerequisites

We highly recommend that all participants complete the free **Tenable Cloud Security Introduction Course** at **Tenable University** before attending this course.

Key Benefits

→ **Hands-on Lab Environment and Product-based Demonstrations**

Gain practical, real-world experience with Tenable products in realistic demo and lab-based scenarios

→ **Flexible Scheduling with Live or On-Demand options**

Live instructors teach courses remotely from multiple time zones to meet your availability requirements. Or, watch the comprehensive self-paced video course on your schedule

→ **Knowledge You Can Use**

Gain deeper knowledge so you can better understand your risk and prioritize remediation of security issues in cloud-based environments

→ **Prepare for Certification**

Excellent preparation for those seeking to obtain Tenable Cloud Security Specialist Certification
