

Identity Exposure

Tenable Identity Exposure Specialist Course Instructor-led Training

Tenable University

Tenable Identity Exposure Specialist Course

The Tenable Identity Exposure Specialist Course will give you the knowledge and skills you need to effectively utilize our Identity Exposure solution. It is designed for personnel responsible for addressing Active Directory (AD) risks and disrupting attack paths in enterprise IT environments.

Overview

This course is available as a two-day Virtual Instructor-Led Training (VILT). Participants will learn how to set up and manage the Tenable Identity Exposure platform, covering key topics such as installation and configuration of TIE in cloud or on-premises environments, a review of essential AD components and TIE operations, and detailed discussions on using Indicators of Exposure (IoEs) and Indicators of Attack (IoAs) to analyze vulnerabilities and detect attacks.

The course also features a blend of lectures, demonstrations, and interactive lab exercises, all designed to promote active engagement and enhance learning outcomes. Eligible for CEU/CPE credit.

Audience

The Tenable Identity Exposure Specialist Course is suited for professionals with operational responsibilities who want to expand their knowledge to maximize effectiveness of the solution. It is recommended for those seeking to obtain a Specialist-level product certification.

Prerequisites

We highly recommend that all participants complete the free [Tenable Identity Exposure Introduction Course](#) at [Tenable University](#) before attending this course.

Key Benefits

→ Hands-on Lab Environment

Gain practical, real-world experience with Tenable products in realistic scenarios

→ Flexible Scheduling

Live instructors teach courses remotely from multiple time zones to meet your availability requirements

→ Knowledge You Can Use

Starting with a firm foundation, progress deeper into deployment planning and vulnerability analysis

→ Prepare for Certification

Excellent preparation for those seeking to obtain Tenable Identity Exposure Specialist Certification, and is eligible for recommended CPE/CEU credit.

ABOUT TENABLE

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for approximately 44,000 customers around the globe. Learn more at tenable.com.
