TENABLE NESSUS ADVANCED ON-DEMAND TRAINING COURSE

TENABLE NESSUS ADVANCED COURSE

The Tenable Nessus® Advanced course provides the knowledge and skills necessary to effectively use Tenable Nessus Expert, the industry standard vulnerability assessment solution featuring Infrastructure as Code (IaC) and External Attack Surface Assessment. Through a series of videos and demonstrations, you will learn how to operate the most common features and functionality, enabling you for success and quick time to value.

OVERVIEW

This on-demand course enables the student, through a series of targeted videos, to develop the building blocks for effective use of the Tenable Nessus Expert vulnerability assessment solution. From discovery to analysis, participants will learn to effectively utilize Nessus Expert in a variety of business use cases. Topics include attack surface discovery, basic and in-depth IAC scanning options using Terrascan, web app scans, and results analysis. A knowledge exam is included, which awards a digital badge and Certificate of Completion upon passing.

AUDIENCE

This course is suitable for all parties interested in learning or improving their knowledge of Nessus Expert.
