

TENABLE SECURITY CENTER EXPERT CERTIFICATION EXAM

TENABLE SECURITY CENTER EXPERT CERTIFICATION

Tenable Security Center (formerly Tenable.sc™) is a comprehensive vulnerability analysis solution that provides complete visibility into the security posture of your distributed and complex IT infrastructure. The Tenable Security Center Expert Certification is a two-part exam, written and practical, that validates your in-depth product and best practices knowledge.

The exam is taken online in a proctored environment. The written exam must first be completed before you are allowed to take the practical exam. Upon successful completion of both exams, a Tenable Security Center Expert Certification will be provided in electronic format.

WRITTEN EXAM

Candidates are required to complete a sixty (60) question exam. The exam bank consists of both multiple-choice and true/false questions.

Two (2) hours are allocated for completion, and a minimum score of 80% is required to pass.

PRACTICAL EXAM

Candidates are required to complete a set of activities simulating a real-world environment. The practical exam can include up to thirty (30) tasks to complete, with a series of questions based upon the tasks. Each question is scored equally.

Four (4) hours are allocated for completion, and a minimum score of 80% is required to pass.

WHAT YOU WILL BE TESTED ON

1. Introduction to Large-Scale Deployment
2. Asset Identification
3. Asset Responsibility
4. Troubleshooting Large-Scale Deployments
5. Performance Tuning
6. Ongoing Operations
7. Extremely Large Deployments
8. Ongoing Management of Extremely Large Deployments
9. Introduction to the API
10. Using the API
11. The Tenable Lumin Connector
12. Introduction to Tenable Lumin
13. Advanced Use of Tenable Lumin
