

Vulnerability Exposure

Tenable Security Center Introduction Course On-Demand Training

Tenable University

Tenable Security Center Introduction Course

The Tenable Security Center (TSC) Introduction Course consists of a series of short, on-demand videos providing the fundamental building blocks to deploy, configure and use TSC for vulnerability management managed on-premises. The TSC Introduction Course is available for no cost at Tenable University.

Overview

This course is available as an On-Demand Training (ODT). Tenable presents basic features of the Tenable Security Center platform. Content includes installation and configuration, asset discovery, vulnerability and compliance assessment, analysis, alerts and reporting.

The course features a blend of lectures and demonstrations, all designed to promote active engagement and enhance learning outcomes.

Audience

The Tenable Security Center Introduction Course is suited for professionals interested in learning the basic operational use of Tenable Security Center.

Prerequisites

None.

ABOUT TENABLE

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for more than 44,000 customers around the globe. Learn more at tenable.com.
