

# TENABLE SECURITY CENTER SPECIALIST CERTIFICATION EXAM

## TENABLE SECURITY CENTER SPECIALIST CERTIFICATION

Tenable Security Center (formerly Tenable.sc™) is a comprehensive vulnerability analysis solution that provides complete visibility into the security posture of your distributed and complex IT infrastructure. The Tenable Security Center Specialist Certification is a two-part exam, written and practical, that validates your ability to plan, deploy, verify and troubleshoot the platform.

The exam is taken online in a proctored environment. The written exam must first be completed before you are allowed to take the practical exam. Upon successful completion of both exams, a Tenable Security Center Specialist Certification will be provided in electronic format.

#### **WRITTEN EXAM**

Candidates are required to complete a sixty (60) question exam. The exam bank consists of both multiple-choice and true/false questions. We suggest candidates read the questions carefully before answering.

Two (2) hours are allocated for completion, and a minimum score of 80% is required to pass.

### PRACTICAL EXAM

Candidates are required to complete a set of activities simulating a real-world environment. The practical exam can include up to thirty (30) tasks to complete, and each is scored equally.

Four (4) hours are allocated for completion, and a minimum score of 80% is required to pass.

#### WHAT YOU WILL BE TESTED ON

- 1. Technology Overview
- 2. Architecture and Design
- 3. Installation and Deployment
- 4. User Management
