

Tenable One Exposure Management Platform Specialist Course

Tenable University

Course **overview**

The Tenable One Exposure Management Platform Specialist Course will equip you with the knowledge and skills you need to use the Tenable One solution effectively.

This course is available as a 16-hour on-demand training (ODT) course. Participants learn to set up and manage Tenable One, as well as how to implement Continuous Threat Exposure Management (CTEM) to move beyond traditional vulnerability management and embrace a continuous, risk-based strategy.

The course also features a blend of lectures, demonstrations, and interactive lab exercises, all designed to promote active engagement and enhance learning outcomes. ODT purchase includes 30 calendar days of access to the lab environment. Eligible for CE credit.

Audience

The Tenable One Exposure Management Platform Specialist Course is suited for professionals with operational responsibilities who want to expand their knowledge to maximize the solution's effectiveness. It is recommended for those seeking to obtain a Specialist-level product certification.

Prerequisites

We highly recommend that all participants complete the free [Tenable One Exposure Management Platform Introduction Course](#) at [Tenable University](#) before attending this course.

Key **benefits**

- Hands-on lab environment
Gain practical, real-world experience with Tenable products in realistic scenarios
- Flexible On-demand option
Watch the comprehensive self-paced video course on your schedule
- Knowledge you can use
Gain deeper knowledge so you can better understand your risk and prioritize remediation of security issues in cloud-based environments

- Performance and Accuracy Optimization
- Exposure Management Asset Tagging: Bridging Discovery and Prioritization
- Risk-Based Prioritization: From CVSS to VPR and EPSS
- Asset-Level Risk: ACR, AES, and CES
- Context-Aware Analysis: Attack Path Analysis and Exposure Signals
- Operationalizing Remediation: Exposure Cards and SLAs
- Evaluating Security Posture: Analytics and Dashboards
- Introduction to Tenable Hexa AI

About Tenable

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for over 40,000 customers around the globe. Learn more at tenable.com.
