

TENABLE VULNERABILITY MANAGEMENT EXPERT COURSE INSTRUCTOR-LED TRAINING

TENABLE VULNERABILITY MANAGEMENT (TVM) EXPERT COURSE

This fast-paced TVM Expert Course will build on previous instruction to advance your usage of Tenable's end-to-end, cloud-based vulnerability management solution in various enterprise IT environments. Hands-on lab exercises will provide opportunities for practical application of the concepts and skills.

OVERVIEW

Participants in this premium two-day course will learn advanced operational and administration skills. Content for the instructor-led course includes tuning TVM for maximum performance, using the TVM API with pyTenable, assessing container and web app security, remediation and importing TVM data into Tenable Lumin for Cyber Exposure risk analysis.

AUDIENCE

This course is suited for practitioners with 2-3 years of experience using TVM, who want to expand their knowledge of best practices and maximize the solution's capabilities. It is recommended for those seeking to obtain TVM Expert Certification.

PREREQUISITES

Tenable highly recommends that all participants complete the instructor-led [TVM Specialist Course](#) from [Tenable University](#) before attending this course.
