Tenable Vulnerability Management Specialist Course

Tenable University

Tenable Vulnerability Management Specialist Course

The Tenable Vulnerability Management Specialist Course will give you the knowledge and skills you need to effectively utilize our cloud-based vulnerability management solution. It is designed for personnel responsible for identifying, investigating and remediating vulnerabilities and misconfigurations in their business environment.

Overview

This course is available as either a two-day Virtual Instructor-Led Training (VILT) or as an On-Demand Training (ODT). Participants will learn how to set up and manage the Tenable Vulnerability Management platform. Content includes installation and configuration, operations, a technology overview including architecture and design discussions for typical environments, and detailed scanning and analysis instruction.

The course features a blend of lectures, demonstrations, and interactive lab exercises, all designed to promote active engagement and enhance learning outcomes. ODT version includes 16 hours of lab environment access with course purchase. Eligible for CEU/CPE credit.

Audience

The Tenable Vulnerability Management Specialist Course is designed for professionals with operational responsibilities who want to expand their knowledge to maximize effectiveness of the solution. It is recommended for those seeking to obtain a Specialist-level product certification.

Prerequisites

We highly recommend that all participants complete the free [Tenable Vulnerability Management Introduction Course](#) at [Tenable University](#) before attending this course.

Key Benefits

→ Hands-on Lab Environment

Gain practical, real-world experience with Tenable products in realistic scenarios

→ Flexible Scheduling with Live or On-Demand options

Live instructors teach courses remotely from multiple time zones to meet your availability requirements, or watch the comprehensive self-paced video course on your schedule

→ Knowledge You Can Use

Gain deeper knowledge so you can better understand your risk and prioritize remediation of security issues in cloud-based environments

→ Prepare for Certification

Excellent preparation for Tenable Vulnerability Management Specialist Certification. Eligible for recommended CPE/CEU credit.

ABOUT TENABLE

Tenable is the exposure management company, exposing and closing the cybersecurity gaps that erode business value, reputation and trust. The company's AI-powered exposure management platform radically unifies security visibility, insight and action across the attack surface, equipping modern organizations to protect against attacks from IT infrastructure to cloud environments to critical infrastructure and everywhere in between. By protecting enterprises from security exposure, Tenable reduces business risk for approximately 44,000 customers around the globe. Learn more at tenable.com.
