TENABLE.AD INTRODUCTION

The Tenable.ad™ Introduction Course is available for no cost at Tenable University and consists of a series of short on-demand videos providing the fundamental building blocks to install, connect and use Tenable.ad to secure Active Directory (AD) and disrupt attack paths. Tenable® highly recommends this course as a prerequisite for the instructor-led Tenable.ad Specialist Course.

Participants in this course will learn the basics of how to install, connect and use the Tenable.ad platform. Content includes installation and connection to AD, using Indicators of Exposure (IOE), filtering and analyzing data to identify configuration changes and indicators of attack and setting up alerts and dashboards. Tenable presents basic features and demonstrates usage for each topic.
