AGENTLESS ASSESSMENT INTRODUCTION

The Agentless Assessment Introduction Course is available for no cost at Tenable University. It consists of a series of short on-demand videos providing the fundamental information needed to configure and use Tenable Cloud Security Agentless Assessment to quickly and efficiently scan your cloud assets for software vulnerabilities and misconfigurations.

Participants in this course will learn the basics of how to set up and start using Tenable.cs Agentless Assessment. Content includes an overview of the scanning workflow, setup requirements, creating and troubleshooting scans, analyzing results in Tenable.io and Tenable.cs, and reporting. Tenable presents basic features and demonstrates usage for each topic.

AUDIENCE

This course is suitable for people interested in learning basic operational use of Tenable.cs Agentless Assessment.

PREREQUISITES
