

KEY BENEFITS

- **Ensure resiliency with your security program** by ensuring correct alignment with business goals and objectives
- **Maintain a risk-based approach** while facing resource constraints with your security program
- **Analyze potential weaknesses** and identify steps to a stronger Vulnerability Management program before they happen

KEY DELIVERABLES

- Get an assessment of your current vulnerability management program
- Work with a consultant to adhere to known leading practices and Tenable methodology
- Develop documentation and knowledge you need to maintain your deployment in its most effective state
- Explore how your Tenable solutions integrate with your existing infrastructure

HEALTH CHECK SERVICES

With the rapidly changing landscape, increasingly unpredictable environment and surge in remote employees, organizations are further challenged in keeping up with their Vulnerability Management continuity. It's important to maintain resiliency for security programs to lead patching efforts, eliminate vulnerabilities having the greatest impact and minimize the overall risk to business operations.

ENSURE RESILIENCY WITH VULNERABILITY MANAGEMENT

Ensuring the continued resilience of your vulnerability management capability is paramount when it comes to effectively managing your cyber risk. Tenable's Professional Service Health Check offering can help ensure that support of your business objectives, maintenance of your risk profiles and the integrity of your security posture are maintained throughout challenging and rapidly changing times.

Tenable's HealthCheck will identify the level of resilience inherent within your vulnerability management operations, identify gaps and mitigation techniques, maximize the effectiveness of your solution for optimal security and ensure continuity to your vulnerability management program.

Our goal is supporting you to reduce your risk exposure by benefiting from the features and capabilities of the solution. This will enable more effective business focused decision making by efficiently assessing your assets risks.

COUNT ON TENABLE PROFESSIONAL SERVICES AND OUR CERTIFIED PARTNERS

The Tenable Professional Services team and our global network of certified partners go beyond basic installation services to work with organizations of all sizes for success before, during and after deployment. Tenable's security experts are trusted to provide advice on product optimization and industry best practices. Their experience is gained from years of hands-on experience with thousands of customers worldwide. Leveraging Tenable Professional Services with any organization's deployment elevates its security practice and delivers data for effective risk-based vulnerability management decisions.

STEPS OF A TENABLE HEALTH CHECK SERVICE
