

TENABLE.ASM INTRODUCTION COURSE ON-DEMAND TRAINING

TENABLE.ASM INTRODUCTION COURSE

The Tenable.asm™ Introduction Course is available for no cost at [Tenable University](#) and consists of a series of short on-demand videos providing the fundamental building blocks to configure and use Tenable's External Attack Surface Management (EASM) platform.

Participants in this course will learn the basics of how to configure and use Tenable.asm. Content includes an overview of the following: inventory management, asset and domain discovery, filtering and exporting data, alerts, automation and integration. Tenable instructors present basic features and demonstrate usage for each topic.

AUDIENCE

This course is suitable for people interested in learning basic operational use of Tenable.asm.
