

TENABLE.IO SPECIALIST CERTIFICATION EXAM

TENABLE.IO SPECIALIST CERTIFICATION

Tenable.io™ is a comprehensive cloud-based vulnerability management solution that provides complete visibility into the security posture of your distributed and complex IT infrastructure. The Tenable.io Specialist Certification is a two-part exam; written and practical, that validates your ability to plan, deploy, verify and troubleshoot the platform.

The exam is taken online in a proctored environment, and candidates are allowed to use review materials for assistance. The written exam must first be completed before you are allowed to take the practical exam. Upon successful completion of both exams, a Tenable.io Specialist Certification will be provided in electronic format.

WRITTEN EXAM

Candidates are required to complete a sixty (60) question exam. The exam bank consists of both multiple-choice and true/false questions. We suggest candidates read the questions carefully before answering.

Two (2) hours are allocated for completion, and a minimum score of 80% is required to pass.

PRACTICAL EXAM

Candidates are required to complete a set of activities simulating a real-world environment. The practical exam can include up to thirty (30) tasks to complete, and each is scored equally.

Four (4) hours are allocated for completion, and a minimum score of 80% is required to pass.

WHAT YOU WILL BE TESTED ON

1. Host Discovery
2. Vulnerability Assessment
3. Installation
4. Configuration
