

TENABLE.IO SPECIALIST COURSE INSTRUCTOR-LED TRAINING

TENABLE.IO SPECIALIST COURSE

This fast-paced Tenable.io® Specialist Course will give you the knowledge and skills you need to effectively utilize Tenable.io, our cloud-based vulnerability management solution. It is designed for personnel responsible for identifying, investigating and remediating vulnerabilities and misconfigurations in their business environment.

OVERVIEW

Participants in this two-day course will learn how to implement and support the Tenable.io platform. Content for the instructor-led course includes installation and configuration of Tenable.io, a review of Tenable.io operations, a technology overview along with architecture and design discussions for typical environments, and a detailed scanning and analysis review.

AUDIENCE

This course is suited for professionals with operational responsibilities using Tenable.io who want to expand their knowledge to maximize the solution's effectiveness. It is recommended for those seeking to obtain Tenable.io Specialist Certification.

PREREQUISITES

Tenable highly recommends that all participants complete the free [Tenable.io Introduction Course](#) available at [Tenable University](#) before attending this course.
