

TENABLE ONE INTRODUCTION ON-DEMAND TRAINING COURSE

TENABLE ONE INTRODUCTION

The Tenable One[™] Introduction Course, available for no cost at [Tenable University](#), consists of a series of short on-demand videos providing the fundamental building blocks to use the Tenable One Exposure Management Platform to identify exposures, prioritize remediations and reduce risk across your modern attack surface, as well as assess and improve the success of your organization's exposure management program.

Participants in this course will learn the components of Tenable One Enterprise and Standard, and how to navigate within the workspace. Content includes basic overviews and demonstrations of the features and capabilities of Tenable One: asset inventory, aggregated risk-view analytics, and breach and attack path mitigation. Tenable presents basic features and demonstrates usage for each topic.

AUDIENCE

This course is suitable for people interested in learning basic operational use of Tenable One.

PREREQUISITES

None.
